From student to AI-native professional, in six months

Sixteen weeks of the Professionals Academy with a bias toward building. Every module ends in something real you make with guidance from our team, closing with a capstone and Demo Day. Then a career-skills workshop, and an eight-week paid internship inside a partner company where you deliver one real project.

WHAT YOU'LL BECOME · AI FOR PROFESSIONALS

An AI-native professional

Work with AI every day, automate the busywork and raise your output: you direct, check and decide while AI drafts and proposes. No coding background required.

Docs & data | No-code automation | Personal AI system

WHO CAN APPLY

Emerging Talents Macedonia is exclusively for young people **aged 20–25** who are **enrolled in faculty or hold a bachelor's degree**. It's built as a launchpad: academy, career skills, then paid work experience.

22
AI SOLUTIONS

Learn from the team that shipped it in the real world.

We've implemented 22 AI solutions for businesses across Macedonia, Croatia and Slovenia. Your mentors teach the exact tools and methods they use on live client work, not theory, and you finish inside a real partner company.

Emerging Talents Macedonia - AI Professionals

The full journey month by month: 16-week academy, career-skills workshop, and the 8-week paid internship.

Frequently asked

Who can apply?

Young people aged 20–25 who are enrolled in faculty or hold a bachelor's degree.

What learning format is it?

Practical, interactive learning through live online classes; the internship runs inside a partner company. There is no prep program. The academy starts directly on November 5.

Is the internship really paid?

Yes. Eight weeks inside a partner company, four hours a day, working on one real project.

Do I need prior knowledge?

No. The program is designed for beginners too - the curriculum takes you from the basics to advanced skills step by step.

What are the payment options?

Tuition is 100€ per month across 12 months.

Will I get a certificate?

Yes. You graduate at Demo Day, and finish the internship with a certificate, reference letter and public portfolio.
